

## A Minor Pentatonic Position 2 (D Shape)

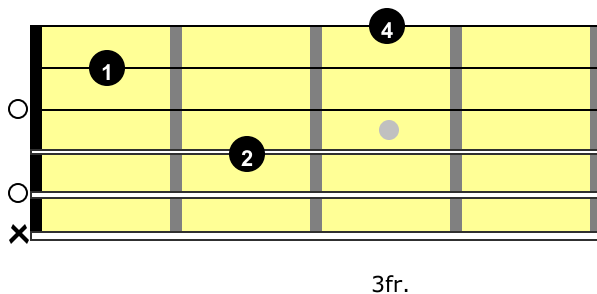

This is the 2nd Position (or D Shape) of the Pentatonic scale.  
It continues where the 1st Position (or E Shape) left off.

If you learn the E Shape and D Shape, you can cover 6 frets.  
That's half the fretboard!

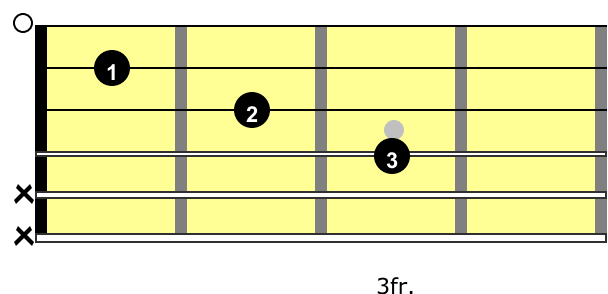

Practice this scale by playing it up and down.

When you feel comfortable, try starting with the E Shape and ending with the D Shape. Start in the 5th fret and end in the 10th.

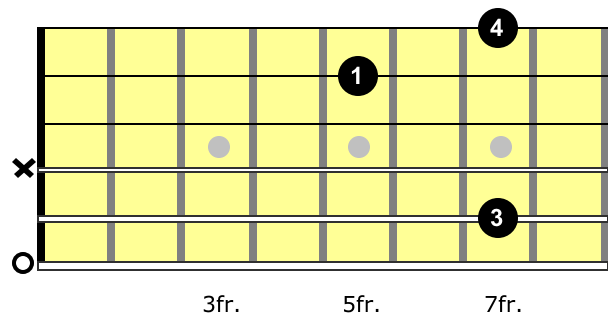

Am7

Fmaj7

Em

Try improvising using the  
following chord pattern:

| Am / / / | Am7 / / / | Fmaj7 / / / | Em / / / |
